

- Non-flammable paint and varnish remover
- For industrial, marine and consumer use
- Lifts finishes from wood, metal, glass and masonry
- Effectively strips paint, enamel, urethane and varnish

5f5 Paint/Varnish Remover

Description

5f5 non-flammable paint remover is a heavy bodied stripper that removes paint, varnish, enamel, lacquer, shellac and latex paint. The product stays wet longer to penetrate and lift old surfaces making removal easy. 5f5 does not raise wood grain or harm metal surfaces and clings to vertical surfaces.

Application

Removes multiple layers of paint and varnish without damaging wood, metal and masonry. One gallon of remover covers approximately 100 square feet of surface area. 5f5 is easily removed with mineral spirits.

Directions

Brush on thick coat of remover. Allow remover to work for 15 minutes or more. Scrape test to see if finish is softened to base. If not, wait 15 minutes longer and re-test. Be patient and let the remover do the work. Remove sludge with scraper. Use nylon stripping pad and coarse rags to thoroughly wash off residue from stripped surface with mineral spirits.

Important label information
