- Use on wood, metal and masonry surfaces.
- Penetrates detailed carvings and hard-to-reach areas.
- Clings to vertical, curved or rounded surfaces.
- Excellent graffiti remover.

SAVOGRAN

Aerosol Paint/Varnish Remover

Description

This sprayable paint stripper is formulated to quickly and easily remove paint, varnish, lacquer, shellac and polyurethane. A convenient aerosol product that is ideally suited for heavily ornamented wood surfaces and finely carved details. The formula is bodied to cling to vertical surfaces and is water rinsable. Additionally, the product is an excellent graffiti remover.

Application

Removes multiple layers of paint and varnish without damaging wood, metal and masonry. The product is easily removed with mineral spirits or heavy duty cleaner such as TSP and water.

Directions

Spray on an even coat while holding can in an upright position, pointing arrow on top button away from you, at a distance of approximately 8" to 12" from the surface. Allow product to work for 10 minutes. Scrape test to be sure finish is softened to the base. If not wait a few minutes longer, reapply remover and retest. Thick finishes may need more applications. Remove sludge with dull scraper. Use stiff brush or coarse rags to thoroughly wash off residue with Savogran Deglosser, paint thinner or a water solution of TSP heavy duty cleaner. The water wash method may loosen veneers and glue joints and raise wood grain.
